ArcticAir Model AA1 Portable Spot Cooler – Cooling 1500 ft²

Providing Cool Fresh Air Into the Work Place

- Converts Incoming Air up to 20°F.
- High Powered Blower delivers air up to 55+ feet of “mist free” cool air.
- Two Year Warranty.
- In Stock – *ships in two days.*

ArcticAir provides high velocity air combined with the cooling strength of evaporation where you need it most.

Operation: Water from the bottom pan of cooler is pumped to the top and allowed to flow down over the evaporation pads of the unit, evenly saturating the pads. A powerful blower pulls the air through the pads, forcing the water to evaporate. The ArcticAir Spot Cooler is portable and easy to roll with locking casters.

ArcticAir fits through a 32” door, operates with a garden hose attachment for filling into a self contained 24 gallon tank for hours of operation. For easy maintenance without leaks, it has a drip proof pan and few moving parts for less maintenance.

ArcticAir has six sides for maximum air intake and cooling. Six wheels provides excellent structural integrity providing ease of movement across shop floors. Comes standard with a pre-filter for cleaner long lasting pad life and performance.

ArcticAir Spot Cooler SPECIFICATIONS

Base: 31 ½” x 31 ½” High Density Polyethylene
Height: 59”
Water Capacity: 24 Gallons
Weight: 180 LBS (with water: 360 lbs)
Blower Electrical: 1 Hp / 1 Ph / 115 V / 10.8 Amps (full load)
Pump Capacity: 210 GPH
Pump Electrical: 115 V / 1 Ph / 1.1 Amps
Color: White
Shipping Weight: 180 LBS
CFM & RPM: 3000 CFM & 1725 Blower RPM
Air Throw: 55’
Coverage: 1500 ft ² Maximum
Warranty: Two Years
